

Image sharing platform/app

Project Description

Title: Image sharing platform/app

Description: As a person when going on to the image sharing platform I want to be able to easily share images with others. When I log in as a user I want to see my posts & tags & comments. I also want to be able to delete these if I don't want them anymore and I also want to be able to manage everything.

User Post Tag Comment

User Story

- As a User
I want to be able to login on to the Image Sharing Platform
So that I can easily see my posts & tags and comments.
- As a Person
I want to be able to view the Image Sharing Platform
So that I can see the homepage and what the platform has to offer.
- As a User
I want to be able to manage my posts, tags and comments.
So that I can easily decide whether I want to delete these or not.
- As a User
I want to be able to mark my favourite posts
So that I can find them easily.
- As a User
I want to be able to edit my profile information
So that I can keep all my info up to date

Story overview- logging in

As a User

I want to be able to login on to the Image Sharing Platform

So that I can easily see my posts & tags and comments.

Wireframe

A hand-drawn wireframe of a login page. At the top, the word "LOGIN" is written in large, hand-drawn capital letters. Below it, there are two rectangular input fields. The first field is labeled "Username" and contains the placeholder text "Please enter your username". The second field is labeled "Password" and contains the placeholder text "Please enter your password". Below these two fields is a smaller rectangular button labeled "Sign in".

Acceptance criteria

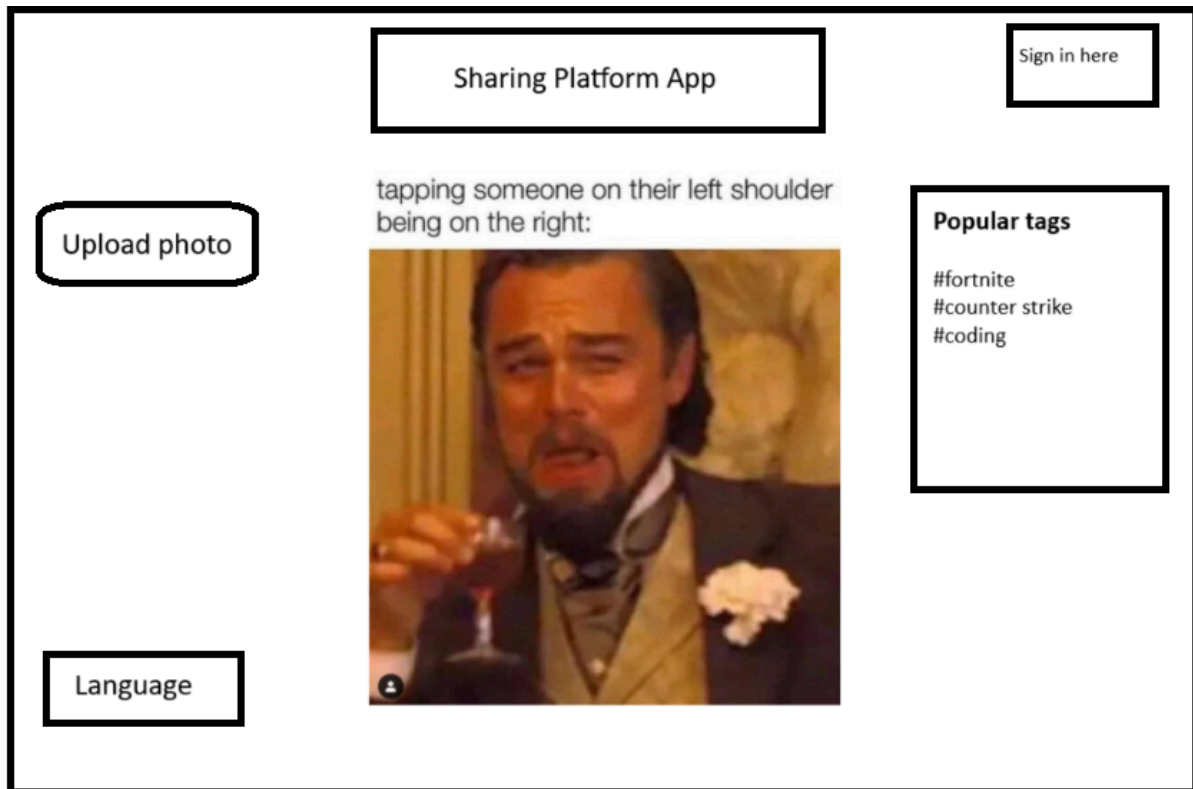

- A login page is showed when a user is trying to login in the sharing platform app
- Upon logging in I can then see my posts, tags and comments.

Story overview- viewing the app

As a Person

I want to be able to view the Image Sharing Platform

So that I can see the homepage and what the platform has to offer.

Acceptance criteria

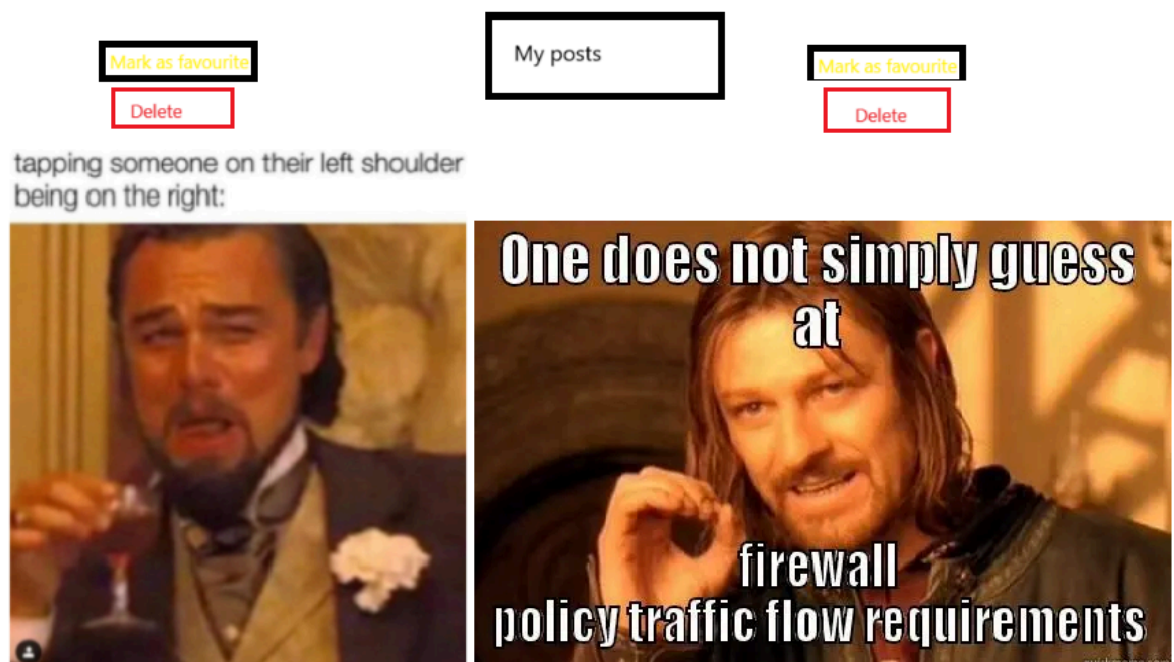

- A homepage is showed when a user visits the platform
- The user cannot do much, if he decides to upload a photo then it will prompt him by first making a account on the platform
- He can browse through the platform.

Story overview- managing posts

As a User

I want to be able to manage my posts

So that I can easily decide whether I want to delete these or not.

Acceptance criteria

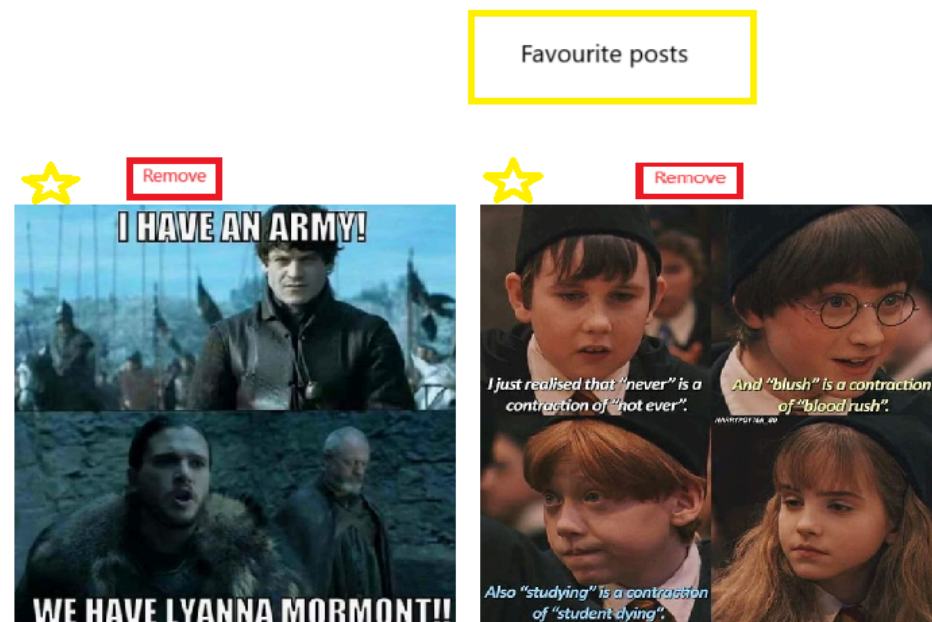

- When clicking on my posts i have the ability to see them.
- I can delete these posts if i want.

Story overview- managing

As a User

I want to be able to mark my favourite posts

So that I can find them easily.

Acceptance criteria

- I should be able to go to my favourite posts, all the posts should be there when marked as favourite.
- I also should be able to remove them from favourites

Story overview- managing

As a User

I want to be able to edit my profile information

So that I can keep all my info up to date

Settings
